Probit Exchange

RWaltz is Probit's Technology Partner.

ProBit Global is one of the World's Top 20 Crypto-exchanges, based in South Korea. Probit only lists what it deems to be 'qualified and deserving' cryptocurrency projects. ProBit reportedly has an order matching speed of over 1.5 million orders per second and a customizable user interface.

Probit offers a wide range of services for the crypto community ranging from IEOs to trading. The staking feature of Probit allows users to stake and earn rewards.

We provide various technology services, Smart Contract Audits and also assist Probit in Token Listing and IEOs.

Altbase

Altbase (California, USA) is an auto-deflation and auto-liquidation cryptocurrency token, issued on the Binance Smart Chain having more than 64,000 community members.

Altbase - Mobile Exchange Application

RWaltz has developed an end-to-end Mobile Exchange Application to buy Alt Coins, Meme Coins & everything in-between. Users can buy cryptocurrency easily with a credit or debit card, making easy crypto purchases for new adopters.

In just 3 months, Altbase has reached 80k+ community and on the Play store, Altbase has 20k+ downloads and 5k+ reviews with 4.7 ratings. RWaltz has a track record of impressing users with its UI, User Experience, Features, and Easy Accessibility.

AltbaseRocket - Decentralized Launchpad

RWaltz has been providing various services like Smart Contract Development, front-end designs and Blockchain API integration for AltbaseRocket. Launchpad has features like Token Investment, Token Purchase, Staking, Auction and many more.

RWaltz has helped Altbase increase the investment opportunities.

RWaltz
Blockchain Solution Experts

DeepOnion

DeepOnion is fast privacy-oriented crypto that communicates through the anonymous Tor network. TOR increases the amount of privacy for cryptocurrency users and reduces the possibility of being attacked or hacked by other illegal or legal entities. With the help of DeepOnion, you can easily receive and send ONIONs (the cryptocurrency of the DeepOnion blockchain) over the TOR network.

VoteCentral

RWaltz has developed VoteCentral, which is a voting platform. This platform provides balanced and unbiased voting so that whales cannot influence the votes in their favour.

Airdrop Application

RWaltz developed and launched an Airdrop Application for DeepOnion which helps DeepOnion reward community members for their support and marketing efforts.

The DeepOnion Blockchain is verified by the Bitcoin blockchain. It has a built-in stealth address feature with which you can send or receive transactions or funds anonymously.

Good Pay Global

We are Technology Partners for Good Pay Global.

Good Pay Global builds a token-based payment solution for foreigners visiting Korea and other nations, but the ultimate goal is to specialize in small businesses based on blockchain solutions.

Buyzone

This is a product launched by Good Pay Global, Korea. It is the Digital eCommerce Open Market Platform for global users to experience P2P trading with Blockchain technology. It allows customers to trade digital assets and sell ERC20 tokens through smart contracts in the blockchain in various business fields.

Staking Application

The solution offered was for Staking the coins on the platform. Staking is the process of holding funds in a Mainnet web wallet to support the operations of a blockchain network and in return, holders are rewarded for their contribution.

RWaltz has provided development services for Good Pay Global Wallet Application, Decentralized Marketplace, Token Solutions, and NFT Platform. Good Pay Global have benefited from secured platforms and increased revenue from various Blockchain and Cryptocurrency-based products.

CARNOMALY

Integrating Blockchain Technology to Power 1st Digital Vehicle Marketplace

Leveraging Blockchain Technology, CARNOMALY empowers digital innovations by bridging the gap between the automotive sector and Blockchain technology.

RWaltz Drives the Digital Journey of CARNOMALY Through Cutting-Edge Technology Solutions

Through our Smart Contract Audits, we verified CARR Staking for users enabling them to earn rewards on their holdings. With Smart Contract Audits, CARNOMALY offered a variety of benefits to its users delivering enhanced trust and satisfaction rate.

Embarking on a Digital journey, RWaltz is helping CARNOMALY to create the 1st Digital Vehicle Marketplace through a wide range of technology solutions.
